# Inspektion med droner Inspections conducted by drones

International seminar 12. September 2017

# Inspektion med droner

I de seneste år er der kommet en eksplosiv vækst af anvendelsen af droner i Danmark og nu kan du høre om de vigtigste aspekter af inspektionsopgaver med droner.

## Program:

**13.30-13.45: Velkomst v. droneansvarlig Katalin Christensen fra Bureau Veritas**

**13.45-14.30: Acceleration af droneindustrien med Danmark i front – v. Kommerciel Chef Michael Larsen fra UAS Denmark**

UAS Denmark er et internationalt testcenter og klynge for den danske droneindustri med hovedkvarter i Hans Christian Andersen Airport i Odense. De har ca. 150 medlemsvirksomheder, og du kan høre mere om dronens potentiale – nu og i fremtiden.

**14.30-15.15: Inspection with drones – By Commercial Director Jan van Liebergen from Skeye B.V.**

Skeye conducts drone inspections e.g. 3D visualization or topographic surveying. Skeye has conducted several drone inspections for Bureau Veritas in the Netherlands and Belgium. Learn more about the experience and the benefits for you.

**15.15-15.30: Spørgsmål og netværk**

## Tilmelding:

Seminaret afholdes den 12. september 2017, kl. 13.30-15.30 hos BINGS på Vesterbrogade 149, 1620 København V. Tilmelding senest den 1. september 2017, via [www.bureauveritas.dk/kurser](http://www.bureauveritas.dk/kurser)

Pris for deltagelsen er DKK 300,- mens det er gratis for Bureau Veritas' kunder og medarbejdere

# Inspections conducted by drones

Lately there has been an explosive development regarding the use of drones and now you can get the latest news on the main aspects of drone inspection tasks.

## Program:

**13.30-13.45: Welcome! By Drone Coordinator Katalin Christensen, Bureau Veritas**

**13.45-14.30: Acceleration of the drone industry and Denmark is leading the way – By Commercial Manager Michael Larsen, UAS Denmark**

UAS Denmark is an international drone-testcenter and cluster for the Danish drone industry with headquarters at Hans Christian Andersen Airport in Odense. They have around 150 companies as members of their industry cluster and now you can get an insight of the potential of the drone – today and tomorrow.

**14.30-15.15: Inspection with drones – By Commercial Director Jan van Liebergen from Skeye B.V.**

Skeye conducts drone inspections e.g. 3D visualization or topographic surveying. Skeye has conducted several drone inspections for Bureau Veritas in the Netherlands and Belgium. Learn more about the experience and the benefits for you.

**15.15-15.30: Questions and network**

## Registration:

The seminar will be held on September the 12th 2017, 13.30-15.30, at BINGS, Vesterbrogade 149, 1620 København V. Registration no later than September the 1st 2017, via [www.bureauveritas.dk/kurser](http://www.bureauveritas.dk/kurser)
